

Editor's Note

The third volume of *Hereditas Monasteriorum* opens with proceedings of a conference thematically linked to the subject of our journal. All interested authors are welcome to publish such conference proceedings in *Hereditas Monasteriorum* also in the future. The papers will be published at the beginning of the *Dissertations* section.

In the current volume we have introduced some editorial changes as well. Bibliographic notes will feature terms and punctuation marks in accordance with the rules of the language of the main text. In reviews and book notices, and in the *Books received* section we will give full names of authors, editors, publishers etc.
